SATURDAY EVENING, FEBRUARY 16.

CREMATION. - The cremation of the remains of Mrs Ben. Pitman, of Cincinnati was successfully accomplished at Washington, Pa., yesterday afternoon, the entire operation lasting less than two hours. The train bearing the remains reached there about eleven o'clock that morning, and the body was taken directly from the station to the crematory. The casket was made of cherry, beautifully carved, a present from the Cincinnati School of Design, of which the deceased lady was a member. It was lined inside with white satin. The corpse was accompanied only white satin. The corpse was accompanied only by Mr. Pitman and Mr. Plympton, of Cincinnati, a personal friend of the Pitman family. All strangers and newspaper representatives were excluded from the building during the cremation, the parties present being Messrs. Pitman and Plympton and those persons in charge of the furners.

charge of the furnace.

The estimated heat of the retort at noon was 1,200° Kahrenheit. The arrangements at the crematory were similar to those used during the cremation of Baron De Palm. The remains were taken from the casket and placed in the iron cradle and a muslin cloth, proviously soakding alum water was appead over them to hide ed in alum water, was apread over them to hide them from view. At two o'clock the cradle was pushed into the retort and the door closed. In eighteen minutes the body were entirely reduced, and at the end of an hour and three-quarters the cremation was pronounced complete, and the flues of the furnance were closed and the door sealed hermetically to arrest combustion and allow the retort to cool. This will require at least thirty hours, when the door of the retort will be opened and the calcined bones removed. The result of the cremation is not ashes, but fragments of calcined bones, white as snow and entirely edorless. Mr. Pitman expressed himself as more than satisfied with the result of the cremation. He is undecided as to what he will do with the remains, but he thinks he will erect a monument, in the inside of which he will place the jar and contents. Dr. Le Moyne says that hereafter all cremations will be conducted in strict privacy, none but the friends being allowed in the building during the process, and says the success of yesterday was not needed to convince him that cremation is the quickest, most economical and sanitary way of disposing
